^^Estimated savings or best plan confirmation shown are based on your past 12 months usage, or your available usage data (if less than 12 months) and our current in market plans at the time this bill was issued. We update our plans from time to time. If you switch plans, the amount you may save will depend on the plan you choose and the amount of energy you use. If you're on a demand tariff, we'll estimate demand charges based on your usage data, if available, or use the average demand charge of other demand customers in your distribution area. Demand charges can vary significantly and what you may pay will depend on how you use energy during the period when the demand charge applies.
